

ISSAC 2010

35th International Symposium on Symbolic and Algebraic Computation
Munich, July 25–28, 2010

Fachgruppe
Computeralgebra

CALL FOR POSTERS

The 2010 International Symposium on Symbolic and Algebraic Computation (ISSAC) is the 35th meeting in a series of conferences, begun in 1966 and held annually since 1981. ISSAC is the premier conference for original research on all aspects of symbolic computation. Following tradition, ISSAC 2010 will feature presentations of accepted research papers, invited talks, posters, tutorials, software demonstrations, and company exhibits.

The poster sessions at ISSAC offer a forum for researchers to present early research results that are of interest but not yet completed. We invite authors to submit an extended abstract in PDF format of no more than 2 pages. The abstracts will be reviewed by the poster committee and relevant experts when needed. The review criteria are: content, originality, style and relevance. The accepted poster abstracts will be printed and distributed at the conference as well as published in an upcoming issue of the ACM SIGSAM Communications in Computer Algebra <http://www.sigsam.org/cca/>

IMPORTANT DATES

Deadline to submit an extended abstract (.pdf format):	May 31, 2010
Notification of acceptance:	June 30, 2010
Deadline to submit (.tex) updated abstracts:	July 10, 2010

CONFERENCE TOPICS

See the ISSAC 2010 Call For Papers available at:
<http://www.issac-conference.org/2010/>

SUBMISSION INSTRUCTIONS

A template LaTeX file to produce an A0 poster is provided.
Details on submission of contributions may be found by visiting the submission web page at
<http://www.easychair.org/conferences/?conf=issac2010posters>.
Authors of accepted posters are expected to present their work at the symposium.
